

# CONFERENCE AGENDA - DAY 1:

## WEDNESDAY 1<sup>ST</sup> November 2023

---

### 7:30: Registration Opens

Visit us at the registration desk to pick up your badge

### 8:45 - 8:50:

#### Welcome Speech & Safety Briefing

**Vinay Nair**, *Project Manager, MENA HSE Forum*

### 8:50 - 9:00:

#### Chairman's Introduction

**Larry Wilson**, *CEO, Safestart International*

## Section One: Effective Process Safety Management

---

### 9:00 – 9:30:

#### Navigating the Serious Injury and Fatality Phenomenon

- Discover the approach to establishing and applying an exposure rate for incidents and near misses that have the potential to result in a serious or fatal injury (SIF) thereby reducing the occurrence of life-altering injuries
- Analyse The Heinrich Safety Triangle and how recent data shows a decline in non-fatal rates but very little change in fatalities and why focusing on exposures with low SIF potential is crucial for addressing the risks that lead to SIFs
- Learn why relying solely on recordable injury rates can overlook important data underlying SIFs, discuss strategies for minimising

exposure to SIFs and approaches your organisation can implement to minimise downtime

**Daryl Wake**, *Business Development Director, Dekra Organisational and Process Safety*

### 9:30 – 10:00:

#### Establishing a Health & Safety Framework across New Complexes

- Hear about the appropriate safety practices that build a positive culture across multi-site organisations
- Determine how employing technology to support your health & safety programme will support incident management, compliance and risk management
- Understand how to ensure high standards are maintained across your international projects by adopting standards and best practice that function consistently across the board

**Paul Slater**, *Executive Director QHSE, Saudi Entertainment Ventures*

# CONFERENCE AGENDA - DAY 1:

## WEDNESDAY 1<sup>ST</sup> November 2023

---

**10:00 – 10:30:**

### Governance and Leadership in Health and Safety & the New UAE Standard supporting the ISO 45001

- Access the latest Standard for Governance and Leadership of Health and Safety within the UAE
- Understand why the standard is important and why the UAE Committee developed it
- Review the basic outline of the contents of the standard and how it will help the effective implementation of the ISO 45001

**Dr. Waddah S. Ghanem Al Hashmi**,  
*Chairman of the Federal Committee for Occupational Safety and Health  
Fellow & UAE Chapter Advisory Chair,  
Board Directors Institute – GCC  
Hon. Chairman – Energy Institute – Middle East  
Sr Director Logistics & Marine Assurance,  
Horizon Terminals Ltd, Emirates National Oil Company*

**10:30 – 11:00:**

### Coffee/Networking Break

**11:00 – 11:30:**

### The Power of Combining PHA and Bowtie – An Evolved Approach to Process Safety Management

- Discover a singular approach that enables a quick, highly efficient, and holistic view of the risks associated with a process. This provides a vastly more dynamic and flexible approach to risk management
- Use PHA to identify potential hazards and their consequences. Share them

with bowties to represent the links between hazards, threats, and controls. Use these bowties to identify areas of cumulative risks, which are visualised

- Learn how to implement this innovative approach today for safer and more efficient industrial processes

**Paul Tours**, *Principle EHS Solutions Consultant*, **Wolters Kluwer Enablon**

### Section Two: Driving Digital Transformation

---

**11:30 – 12:30: Panel Discussion – Digital Transformation Today**

- Understand the importance of digital transformation in HSE
- Discuss the core areas a digital mindset can be applied to improve your HSE function
- Debate the challenges facing a digital implementation and how these can be overcome

**Moderator: Larry Wilson**, *CEO*, **Safestart International**

**Ryan Mitchell**, *Head of QHSEW (Quality, Health, Safety, Excellence and Wellbeing)*, **Farnek**

**Suriya Narayanan**, *Sales & Marketing Division - Digital Enterprise Business Unit*, **Yokogowa Rap**

**Binu Kalarickan**, *Director – HSE*, **Ras Al Khaimah Economic Zone Authority – Government of Ras Al Khaimah**

**Eng. Mohamed Al Jneibi**, *Business Resilience Director*, **Abu Dhabi Sustainable Water Solutions Company (SWS)**

# CONFERENCE AGENDA - DAY 1:

## WEDNESDAY 1<sup>ST</sup> November 2023

---

**12:30 – 13:00:**

### **Innovations that Save Lives - Advanced Tech Strategies for HSE Leaders**

- Digitally transform your EHS program and enhance workflows and action closure across EHS program areas including incident management, meeting compliance requirements, more!
- Leverage powerful dashboard & analytics capabilities to analyse and report your incidents, audits, and other EHS data with ease
- Embrace the power of Advanced technologies to accelerate your EHS goals and improve your safety culture

**Lara El Saad**, *Associate Consulting Director, Subscriber Engagement,*  
**Benchmark Gensuite**

**13:00 – 14:30pm: Lunch Break**

Grab some lunch and refreshments in the technology showcase hall and head back to the main conference room for an interactive Lunch & learn session from Benchmark Gensuite

**13:15pm-14:00pm:**

### **Lunch and Learn Session by BENCHMARK**

**14:30 – 15:00:**

### **EGA Best Practice on Effective HSE Leadership**

- Hear about the technologies supporting EGA's journey towards Zero Harm to how you can implement these plans and achieve your health & safety objectives for 2024
- Take away information on initiatives such as employee engagement programmes, data management and e-learning session that are upgrading EGA's safety culture
- Analyse how to achieve a mature HSE culture by identifying challenges preventing optimal employee performance

**Ronald Otte**, *Director – Safety & OHH,*  
**Emirates Global Aluminium**

# CONFERENCE AGENDA - DAY 1:

## WEDNESDAY 1<sup>ST</sup> November 2023

---

### Section Three: Consistent Responsibility – Training & Audit

---

**15:00 – 15:30:**

#### Asyad Drydock's Consistent Approach Towards LTI-Free Workplace

- Understand why effective HSSE communication is critical to minimise hazards, avoid unsafe practices and promote safety culture
- Recognise why harnessing technology is a game changer to improve workforce efficiencies by identifying trends and patterns for improvements
- Learn about the various HSSE training and audit programmes adopted by Asyad Drydock that have contributed to their LTI-free achievements for 2 years in a row

**Md Ubaidul Haq**, *Head of Department - HSSE, Asyad Drydock*

**15:30 – 16:00:**

#### Coffee Networking Break

Grab some refreshments in the technology showcase hall

**16:00 – 16:30:**

#### Why Safety Must be a Core Value

- Learn how you can achieve overall performance and operational efficiency by prioritising safety which creates a positive work environment, fostering trust, loyalty, engagement, innovation, and employee satisfaction
- Discover why ignoring safety as a core value can have severe legal and financial consequences. Embrace regulatory standards and regulations to avoid insurance premiums, loss of productivity and costs
- Organisations that prioritise psychological safety demonstrate a genuine commitment towards economic development, stability, and competitiveness at both the organisational and national levels

**Saleh Albalushi**, *Vice President, Group Health Safety and Environment, Drydocks World*

# CONFERENCE AGENDA - DAY 1:

## WEDNESDAY 1<sup>ST</sup> November 2023

---

### **16:30 – 17:10: Defenceless Moments: A Different Perspective On Serious Injuries**

- Although recordable injuries have come down, serious injuries and fatalities have not. Is the reason because the traditional methods of risk assessment do not include human factors and critical errors?
- What if two critical errors are made at the same time and people don't get the benefit of their reflexes and how much does that change risk?
- Get a new and different perspective on serious injury causation, and more importantly, learn what your workforce can do to prevent serious injuries and fatalities from happening in the first place

**Larry Wilson**, *CEO*, **Safestart International**

### **17:10:** **Chairman's Closing remarks**

**Larry Wilson**, *CEO*, **Safestart International**

### **Close of Conference Day 1**

# CONFERENCE AGENDA - DAY 2:

## THURSDAY 2<sup>ND</sup> November 2023

---

### 8:00: Registration Opens

Visit us at the registration desk to pick up your badge – this is your ticket to the full conference

### 8:45 - 8:55:

#### Chairman's Introduction

**Larry Wilson**, *CEO, Safestart International*

### 9:00 – 9:30:

#### Safety Training a Bridge Formed Between an Organisations Vision and Its Realisation

- Take an organisational and strategic view of management, leadership, partnership and policy for health and safety training and identify the key principles on which safety training is established
- Explore 'the different' approaches to safety training and the internal and external organisational drivers coupled with an analysis of the challenges and opportunities faced with implementing, establishing and sustaining a safety training framework
- Discuss the influence of safety training and its correlation between safety climate and safety performance. Highlighting the importance of achieving culture change within organisations by anchoring safety training policies and practices. The identification of the Return on Investment from Safety Training for the business and people

**Paul Burns**, *Corporate HSSE Training, ACWA Power*

### 9:30 – 10:00:

#### Successful Safety Committees

- Recognising the Importance of Safety Committees in Workplace – Grasp the broader role that safety committees play in shaping, executing, and overseeing an organisation's health and safety policies and protocols
- Establishing a Safety Committee – Delve into the specific procedures and recommended approaches for establishing a safety committee
- Maintaining & Sustaining an Effective Safety Committee – Explore the pivotal advantages of maintaining a safety committee and the topnotch methods for upholding the committee's standards effectively

**Sutharson Sathaiah**, *Director of HSE, Six Flags Qiddiya*

# CONFERENCE AGENDA - DAY 2:

## THURSDAY 2<sup>ND</sup> November 2023

---

**10:00 – 10:30:**

### Unlocking Positive Safety Culture via Training & Audit Processes

- Review how training and audit builds HSE competence and awareness, enhances employee engagement while reinforcing a positive safety culture and identifying gaps in your organisation's HSE objectives
- Examine how SRA tools, audit safety risk register and risk management processes help to test effectiveness of risk control measures leading to an overall improvement in hazard identification and risk controls
- Understand how the success of a Safety Management System is validated via training and audit activities

**Mona Adel Abdulaziz**, *Workplace Health & Safety Manager*, **Emirates**

**10:30 – 11:00:**

### Coffee/Networking Break

## Section Four: The Future – Sustainability & People

---

**11:00 – 11:30:**

### AI in HSE to Reduce Risk and Improve Production

- AI-HSE: Empowering Safety with AI-Driven Insight
- Production Data: Harnessing Data for Operational Excellence ( AI-HSE Digital Twin)
- CyberSecurity: Fortifying Digital Defense through Intelligent Systems

**Yves Noel Bourgade**, *Founder*,

**DEAPVISION**

**Jamil Akili**, *Co-Founder*, **DEAPVISION**

**11:30 – 12:00:**

### Beyond Compliance: Cultivating Health & Safety Culture through Leadership

- Understand the importance of conducting higher management site visits to optimise workforce productivity and performance
- Review the site visit goals and commitments for effective implementation of HSE strategies to improve safety culture and communication
- Get an inside track of how large organisations such as ADNOC plan high profile tours, and the safety protocols that are in place for such site visits

**Sultan Karrani**, *Senior Engineer, HSE*, **ADNOC**

# CONFERENCE AGENDA - DAY 2:

## THURSDAY 2<sup>ND</sup> November 2023

---

**12:00 – 12:30:**

### **Dubai Municipality's Approach to Enhancing Psychological Safety**

- Examine how developing a psychologically safe culture enhances employee engagement and fosters an inclusive workplace encouraging creative thinking and new ideas
- Review how psychologically safe workers contribute to reduced operational costs by focusing on minimal employee turnover to create a successful and sustainable business
- Understand how safety observations and behaviour-based safety processes play a critical role in helping to identify and control risk exposures and drive a speak-up culture

**Eng. Raed Mohammed Al Marzooqi**,  
*Manager of Studies & System Section,*  
**Dubai Municipality**

**12:30 – 13:30: Lunch Break**

**13:30 – 14:00:**

### **How to Ensure Sustained Accountability Through Training and Audit**

- Importance of raising awareness
- Enhancing capacity building and preparedness
- Ensuring compliance and continuous improvement

**Suzan Al Ghanem**, *Section Head,*  
*Organisational Resilience & Business*  
*Continuity, Environment Agency - Abu*  
**Dhabi**

**14:00 – 14:30:**

### **Occupational Safety Challenge: Combat Mental Health Stigma**

- Hear about the critical need to break stigma surrounding mental health and how to effectively embed psychological safety within operations to improve employee morale and boost productivity
- Review why organisations need to ensure robust employee engagement is standardised across the board to promote constructive communication and optimise efficiencies
- Recognise why it is essential for management to play an active role in promoting workers' mental health to drive a positive safety culture and prevent insecurities that lead to failed capabilities

**Dr. Irshad Laghari**, *Petrofac Global*  
*Doctor, Petrofac*

# CONFERENCE AGENDA - DAY 2: THURSDAY 2<sup>ND</sup> November 2023

---

**14:30 – 15:00:**

## **Sustainability and Energy Practices in Facilities Management**

- Access the sustainability practices being developed in line with the relevant regulatory authorities that are contributing to efficiencies in sustainable building management
- Learn about the energy reduction best practice being implemented in the facilities management industry and how these initiatives are utilising renewable energy to optimise HSE
- Understand the critical need of efficient asset management to maintain the life cycle and lifespan of construction equipment to optimise construction safety

**Ihab Al Bairam**, *Senior Director, QHSE & Security*, **DAMAC Properties (LOAMS)**

**15:00 to 15:10**

## **Chairman's Closing Remarks**

**Larry Wilson**, *CEO*, **Safestart International**
