WELCOME TO

HEALTH, SAFETY & ENVIRONMENT FORUM 2021

Dear Attendee,

It is a great pleasure to welcome you to the **Health, Safety & Environment Forum 2021**, the region's premier meeting point, for HSE decision makers to exchange ideas, discuss challenges and design future strategies.

In the UAE, Health, Safety and Environment regulations are increasingly stringent and the ambitious socio-economic reform programmes, such as the Dubai 2040 Urban Master Plan, continue to drive heavy investments in environmental and sustainable projects, with an aim to make Dubai the world's best city to live in.

The two-day forum will provide a platform to learn from the highly experienced and influential government officials, on how to achieve excellence in sustainable processes, by optimising HSE operations. It will further focus on the best practices post COVID -19, for HSE standards and methods to minimise risks of working in remote and hazardous environments.

Through a combination of thought-provoking presentations, case studies and interactive panel discussions, the **HSE UAE Forum 2021** will highlight the alignment of the latest UAE regulatory changes with global best practices for optimum results.

The HSE UAE Forum will provide you with an opportunity to gain insights from the key HSE representatives from the region, while professionally developing and creating networks of shared best practices.

As a team, we would like to thank all our speakers, sponsors, media partners and associations for their generous support and contribution to the forum.

We once again welcome you to the HSE UAE Forum, and look forward to two days of enriching discussions and networking.

COVID-19 SAFETY GUIDELINES

WHAT WE HAVE ENSURED FOR YOUR SAFETY

DELEGATE badges have been sanitized by our Official Hygiene Partner **'VINNER'**

BUFFET will be served by waiting staff behind a buffet shield

ENHANCED cleaning and hygiene have been employed before, during and after the event to ensure best safety standards

STOPPED the distribution of printed collateral like conference agenda and magazines to minimise contact

WHAT YOU MUST ENSURE

Do not attend the event if you have COVID-19 symptoms

WEAR a face mask at all times in the venue unless while having food and beverages. Violating this regulation will attract an AED 3000 fine from the local authorities

FOLLOW social distancing guidelines by maintaining a minimum of 2m distance

REFRAIN from all greeting customs that involve physical proximity such as handshakes or embraces etc.

MINIMISE or avoid exchange of printed materials such as business cards and brochures or even exhibits. We recommend using digital alternatives where possible

DO NOT approach the speaker during presentation. (Speakers can remove face mask during presentations while always maintaining at least 4m physical distancing from the audience)

USE hand sanitizer to maintain hygiene, these are made available across the venue

FLOOR marking with regulations should be followed at all times

OBSERVE 2m for buffet queuing. Buffet will be served by waiting staff and self-service is not allowed

GENERAL INFORMATION

SAFETY GUIDELINES

Please adhere to the safety guidelines at all times.

REGISTRATION AND CONFERENCE BADGE

Please collect your conference badges from the registration desk. Badges are required to access all areas of the conference and you will not be admitted without a badge.

GENERAL ASSISTANCE

If you need any assistance during the conference please contact the events team at the registration desk.

LUNCH

Lunch will be served in the pre-function area near the Technology Showcase Hall. Seating is available in the dining hall near the buffet.

WHEELCHAIR ACCESS

Habtoor Grand Resort is wheelchair accessible.

SECURITY

Please keep your belongings with you at all times. Do not leave any conference material in the conference room, dining/networking/registration areas or anywhere else at the venue as we cannot guarantee a replacement. In the event of an emergency please contact the events team at the registration desk.

WIFI ACCESS

Wifi is complimentary for HSE UAE Forum attendees

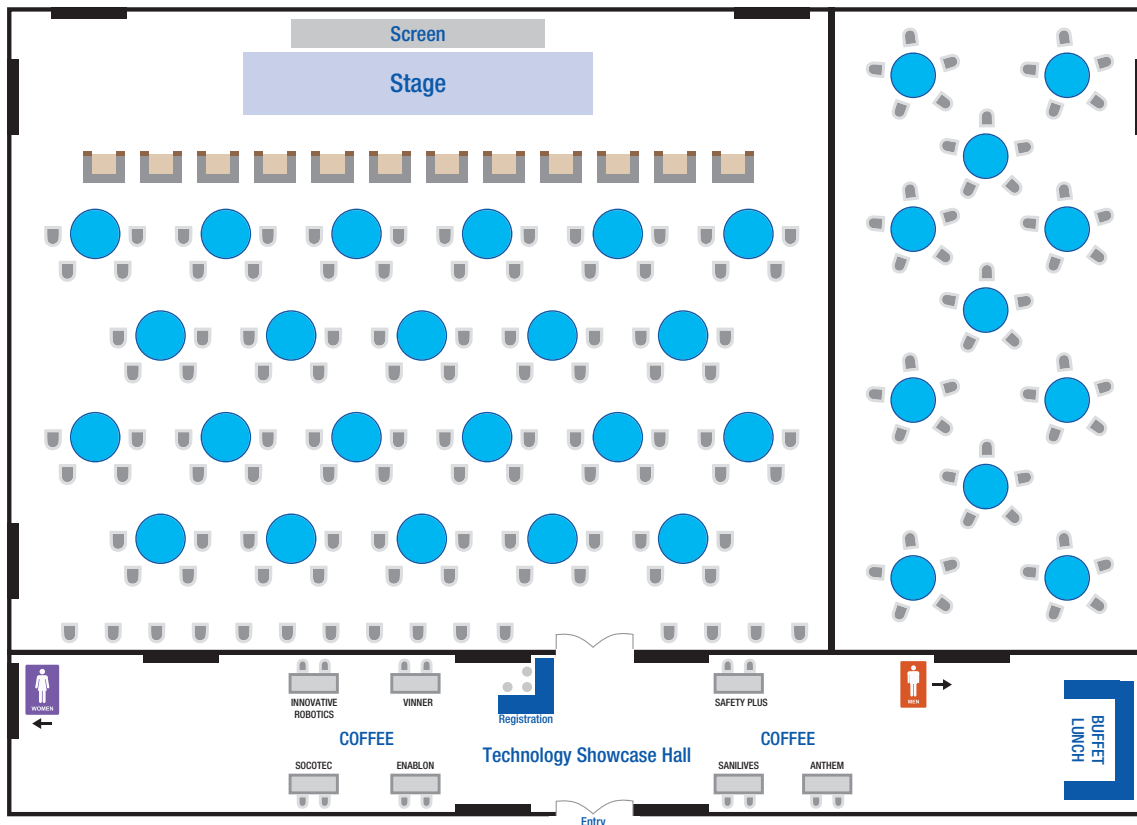

COFFEE & NETWORKING

All coffee breaks and networking will take place in the Technology Showcase Hall

POST CONFERENCE MATERIALS

Conference presentations will be sent to you via email after the conference. Please allow one week after the conference to receive these materials.

FLOORPLAN

CONFERENCE CHAIRMAN

MICK COLEMAN

Enterprise Account Manager
Enablon

Mick Coleman is an operational risk management consultant and a qualified safety advisor with over 30 years of experience in various roles including safety trainer, chemical operations, commissioning engineer, shift management and shutdown coordinator. Mick studied chemical engineering at the University of Strathclyde after which he began his career in a mechanical discipline before moving to chemical operations in the oil and gas domain. He currently works as a consultant for Enablon – providers of operational risk management, environmental health and safety, governance, risk and compliance solutions.

CONFERENCE AGENDA - DAY 1

08:00 ONWARDS - REGISTRATION

SECTION 1: EXCLUSIVE REGULATORY UPDATES

08:50-9:00

Chairman's opening address

Mick Coleman, Enterprise Account Manager, MENA
Wolters Kluwer | Enablon

9:00-9:30

Machine operation related safety management and culture in manufacturing industries

- Common causes of machine accidents in manufacturing industries
- Recommendations for reduction of machine operation related accidents in manufacturing industries
- Efforts of Dubai municipality in enhancing awareness associated to hazard and control of machine operation/ usage

Eng. Raed Al Marzooqi, Section Manager of Studies and Systems Section, Health and Safety Department, **Dubai Municipality**

9:30-10:00

Dubai Municipality, Technical Guidelines: MEWP – GU67 and MCWP – GU71

- Overview of Dubai Municipality guidelines understanding how to comply with the updated TG and learn how to improve productivity and working safely on mobile elevated platforms
- Implement the best practices by deploying safe system of work procedures, identifying site hazards and the use of proper PPE equipment
- In depth talk on working at height safely

Jason Woods, Regional Manager Middle East, IPAF

10:00-10:30

Process safety management & human factors - An experiential approach

- The development of PSM
- The definition of Human Factors and their importance
- Introduction into the EI's PSM Guidelines: Edition 2 and the PSM Framework
- Overview of key aspects of PSM and Human factors as per the latest Elsevier publication on PSM and human factors - An experiential approach

Dr. Waddah S Ghanem Al Hashmi, Hon Chairman, **Energy Institute Middle East**

10:30 - 11:00

COFFEE/NETWORKING BREAK

11:00-11:30

The vision 9 platform; predict and prevent events by driving positive decisions, behaviors and automated controls in critical moments

- Break silos
- 360 risk
- Integrate processes
- Drive productivity
- Predict & prevent

Mick Coleman, Enterprise Account Manager, MENA,
Wolters Kluwer| Enablon

11:30-12:00

Overview of legal accident investigation process by DM and related lesson learnt

- Overview on after math of accidents- process of accident reporting by companies
- Introduction to methodology of legal accident investigation by DM
- Most common accidents in Dubai
- Common causes of various accidents in Dubai industries
- Lesson learnt and expectation from industries

Eng. Mohamed Al Marzooqi, Head of Accident Investigation Unit, Health and Safety Department, **Dubai Municipality**

12:00-12:30

Hygiene protocol – VINNER HOPE (Health optimization photo catalytic ecosystem)

- Purifying air with use of FS-ACT Technology to improve health, wellbeing and work place comfort
- Effective neutralization & microbiological decontamination for a clean and healthy environment
- Creating safer places to work resulting in lower absenteeism rate, high efficiency and higher productivity

Cherian Varghese, Founder & CEO, **VIN Technologies**

12:30- 13:30

LUNCH BREAK

CONFERENCE AGENDA - DAY 1

SECTION 2: BEST PRACTICE POST COVID-19

13:30-14:00

Role of DM in COVID-19 epidemic control in emirates of Dubai

- Ensuring DM business continuity during covid19 period and coordination with other government bodies
- Digitalization of DM services and ensuring related customer satisfaction
- Effective Disinfection planning and support throughout emirates of Dubai
- Arrangements for extensive H&S and Covid19 control during pandemic
- Waste management planning in preventing further spread of diseases
- Ensuring adequate awareness through Covid19 awareness material, legislative guidance's and circulars
- Lessons learnt and setting new norms to deal with such epidemic in future

Dr. Naseem Rafee, Director Health & Safety, **Dubai Municipality**

14:00-14:30

COVID 19's impact in the UAE

- Analyze the impact COVID-19 has had on HSE standards, requirements and operations in the UAE to identify the necessary changes organizations need to consider to operate effectively
- Openly discuss the challenges COVID-19 continues to deliver and how NCEMA can offer critical guidance to support safe operations
- Hear the latest best practice and sustainable processes NCEMA have established to deliver consistent HSE operations in light of COVID-19 and how to comply with these standards

Salem Salmeen Alnuaimi, Head of Safety, **National Crisis & Emergency Management Centre – United Arab Emirates**

14:30-15:00

Building a successful HSE strategy

- Develop a road map to take organizations from independent stage to interdependent stage. A journey from compliance to excellence.
- The role of HSE practitioners, as a catalyst, in setting the right mindset among people.
- Understanding how to become a data and technology - led organization. Using the right tools to improve the HSE performance

Sutharson Sathaiah, Senior Manager- HSE & Risk, **Global Village, UAE**

15:00-15:30

COFFEE/NETWORKING BREAK

15:30-16:00

Saving lives with ECMO during the pandemic

- Machine that helps to oxygenate when ventilation is not working thereby helping the desperately ill patients
- Giving the physician and the patient time for the medicine to work allowing the organs to rest and recover
- The advantage of having an artificial lung/heart while all other forms of support have failed thereby increasing the chances of survival

Dr. Naheed Elahi, Intensivist - **Dubai Hospital, Dubai Health Authority**

16:00-16:30

Managing COVID-19

- Develop clear and precise guidelines to eliminate COVID-19 transmission, protect the workforce and ensure business continuity
- See how real-time contact tracing and mapping helps in timely and effective epidemic monitoring and response
- Understand the importance and benefits of patient/doctor communication, monitoring, follow-up, and recovery

Mohanned Khreis, Country HSEQ Manager, **AlMansoori Specialized Engineering**

16:30-17:00

Safety elements in an adventure park

- Certification, daily safety check - physical and visual
- Weather conditions
- Replacement of circuits
- Design elements and what to consider

Cliff Poulton, General Manager, **Aventura Parks Dubai**

Lina Malas, Managing Director, **Aventura Parks Dubai**

Frank Raubenheimer, Operations Manager, **Aventura Parks Dubai**

17:00 - 17:10

Chairman's summary of the day & closing remarks

Mick Coleman, Enterprise Account Manager, MENA
Wolters Kluwer | Enablon

CONFERENCE AGENDA - DAY 2

SECTION 3: SUSTAINABILITY

Chairman's opening address

Mick Coleman, Enterprise Account Manager, MENA
Wolters Kluwer | Enablon

9:00-9:30

Accelerating the transition to sustainability

- Hear the methods adopted by the Emirates Environmental Group (EEG) to implement an efficient and effective sustainability strategy
- Review the checkpoints and objectives that are necessary to overcome in order to optimize the adoption of change and a smooth transition to sustainability
- Examine the new processes and technologies which will help the UAE achieve its sustainability goals in a timely manner

Mrs. Habiba Al Marashi, Chairperson, **Emirates Environmental Group**

9:30-10:00

IIRSM – The local and global risk management champion

- Championing risk management to drive positive change for both employee and organizational wellbeing
- Setting standards, connecting people and organizations by providing practical education and training
- Providing high quality and accurate training experience that enable learners to effectively manage risks in their workplaces

Peter Hurley, Chairman, **IIRSM United Arab Emirates**

10:00-10:30

PANEL: Achieving sustainability

- Encourage businesses to frame decisions in terms of environmental, social, and human impact for the long-term by twinning goals with sustainability and efficiency
- Hear Fujairah's commitment to zero-waste and to reduce overall emissions to ensure you are positioned to reach these goals and operate effectively in the emirate
- Build a bespoke HSE plan that encompasses profits, planet & people, to offer a future-proof business model for the private sector in the UAE

Dr. Eng. Hithame Al Khodry, Head of QHSE, **Fujairah Natural Resources Corporation**

Mrs. Habiba Al Marashi, Chairperson, **Emirates Environmental Group**

Steve Halligan, Founder & Managing Director, **Core Group Dubai**

10:30-11:00

COFFEE NETWORKING BREAK

11:00-11:30

Innovations is keeping the UAE safe and how to continually improve standards

- Why excellence in safety is important everywhere but just a little more important in the UAE
- Looking at the greatest risks in our environment and how our approach now can set safety and well-being standards for the next generation
- We will look at how ensuring leading health, safety and well-being standards are met, maintained and constantly improved takes a multidisciplinary approach including cladding, water proofing, energy efficiency and fire safety.

Mr. Leigh Hayman, MSc CMIOH and Founder, Regional Manager, **Socotec 4see Consultancy**

SECTION 4: DIGITAL TRANSFORMATION

11:30-12:00

Digitalization in the Logistics Industry

- The tremendous potential that digitalization has in the world of business, and its impact on global supply chains
- The pandemic's impact on accelerating digitalization and the role it plays to optimize productivity and efficiency, while at the same time ensuring that employees are keeping safe
- DHL's focus and commitment on leveraging digitalization to improve customer experience – the launch of DHL's one-stop customer portal, myDHLi and digital freight marketplaces such as Saloodo!, are some examples of how we are transforming the industry

Tobias Maier, CEO of Middle East and Africa, **DHL Global Forwarding**

12:00-12:30

PANEL: Online HSE Training - The new normal

- Utilize the available free online tools to streamline the process thereby increasing productivity and optimizing the new work environment
- Discover the advantages of a controlled environment with multifaceted media support to enhance knowledge transfer to create a culture of prevention and safeguarding of good work
- Understand the benefits and savings of online training to assess the risk of infection and list the basic hygiene measures to protect against infection

Shoukry Anwar, HSEQ Manager, **AlMansoori Specialized Engineering**

CONFERENCE AGENDA - DAY 2

Eng. Raed Marzooqi, Section Manager of Studies and Systems Section, Health and Safety Department, **Dubai Municipality**

Eng. Mohammed Al Dhanhani, Section Manager Safety section, Health and Safety Department, **Dubai Municipality**

Dr. Rahaf Ajaj, Asst. Professor EHS, **Abu Dhabi University**

12:30- 13:30

LUNCH BREAK

13:30-14:00

Sustainability through higher education

- Developing a virtual culture for universities to encourage an innovative mentality while adapting to a new and uncertain future
- Providing access and guaranteeing equal opportunity to lower-income students and to members of disadvantaged minorities.
- Ensuring nutrition, physical & mental health and overall wellbeing of faculty and students thereby emphasizing the role of digital learning to improve the quality of education from here after

Dr. Vinod Shukla, Associate Professor, **Amity University**

SECTION 5: WORKING IN HAZARDOUS ENVIRONMENTS

14:00-14:30

Working safely in confined spaces

- Develop a best practice risk assessment based on FNRC's processes of hazard identification and how risk is quantified for work in confined spaces
- Examine the importance of core procedures, including air quality testing, and how these simple tasks form the backbone of leading HSE mechanism
- Access the specific engineering controls FNRC have implemented to remove the root cause of hazards, rather than treat the symptoms

Dr. Hithame Al Khodry, Head of QHSE, **Fujairah Natural Resources Corporation**

14:30-15:00

Engineering controls to minimize incidents and increase productivity

- Examine how to identify and mitigate exposure to occupational hazards at its source
- Understand the importance of implementing engineering control measures and technologies at the

workplace and how these fit into the 'Hierarchy of Controls'

- Access case studies on how engineering controls are effective in mitigating work hazards to protect workers

Dr. Rahaf Ajaj, Asst. Professor EHS, **College of Health Sciences**

15:00- 15:30

Reshaping the workplace & delivering productivity

- Discover how to create a stable and secure work environment in the post-COVID UAE, which encourages productivity but delivers safety
- Understand the importance of trust, social cohesion and inclusion to create an effective HSE mechanism that all employees have ownership of
- Specify the individual purpose and expected contribution of employees to develop a culture of responsibility throughout the entire organization

Steve Halligan, Founder & Managing Director, **Core Group Dubai**

15:30 -16:00

Public Health in 2021

- Discover the relationship between public health and overall healthcare to see why a focus on public health projects in 2021 is key in the post COVID-19 environment
- Identify significant chronic bio-disruptors that could be controlling our health or lack of and takeaway best practice processes that can support better public health
- Delve into Healology's chronic bio-disruption process and learn how you can develop this into your organisation's HSE procedures

Dr. Hanan Selim, Founder, **Healology Academy**

16:00 -16:20

Case Study: Online HSE Training - The New Normal

Shoukry Anwar, HSEQ Manager, **AlMansoori Specialized Engineering**

16:20 - 16:30

Chairman's summary of the day & closing remarks

Mick Coleman, Enterprise Account Manager, MENA **Wolters Kluwer | Enablon**

16:30

COFFEE / NETWORKING BREAK

SPONSOR ACKNOWLEDGEMENT

SOFTWARE PARTNER

Enablon's a Wolters Kluwer business, is a provider of integrated risk management, operational risk management, EHS and sustainability software solutions. Hundreds of industry-leading enterprises and millions of users worldwide rely on their solutions to minimize risks, increase worker safety, prevent incidents, and achieve regulatory compliance. In January 2020, CGE Risk joined Enablon to form one business within Wolters Kluwer. Enablon's health and safety management software enables you to meet regulatory demands and protect your corporate reputation, while helping to reduce costs, manage risk and streamline internal processes.

www.enablon.com

OFFICIAL HYGIENE PARTNER

VINNER products are environment friendly and promote wellness while reversing pollution. Their award winning products VINNER-CLEAN, VINNER-DISINFECT & VINNER-PROTECT meet the 5D (Five Dimensional) cleaning protocol that address spaces that have their own challenge in cleaning - floor, walls, ceilings, surfaces and air.

www.vin-ner.com

TIC PARTNER

With offices in 23 countries and more than 9,000 people, **SOCOTEC** is a provider of testing, inspection and certification (TIC) in the construction and infrastructure sectors. They deliver professional services in construction, buildings & real-estate, infrastructures, environment & safety, and certification across the globe. Socotec identify, assess and manage risks in terms of quality, health and safety, and environment impacts providing consultation across the life cycle of projects.

www.socotec.com

DISPLAY PARTNER

Focusing on the UN Sustainable Development Goals strategy stressing the need for greener lifestyles, **Sanilives** develop a wide range of smart eco-friendly, cost savvy and innovative security and disinfection devices that are custom made to fit the specific needs of businesses. Their solutions support business continuity responses beyond pandemics with their emphasis on innovation and technology

www.linkedin.com/company/sanilives/

NETWORKING PARTNERS

Anthem are manufacturers of PPE workwear designed with highest safety standards, comfort and ergonomics constantly working on upgrading and developing their products to keep up with the everchanging demands in the industry. They produce inherent permanent flame retardant fabric to provide utmost comfort in extreme working conditions.

SPONSOR ACKNOWLEDGEMENT

NETWORKING PARTNERS

Safety Plus World (SPW) are a vendor of top brands and quality products with solutions for head to toe safety needs. SPW provide training services, consultations, site surveys, calibrations and re-certifications. Voted as the Number One Safety Equipment Distributor in the Middle East in the Year 2017, SPW has a team of certified and trained personnel to assist and guide with a company's HSE needs. Other than PPE, SPW provides solutions in all areas such as Gas Detection, SCBAs and Fall Protection. They provide free site surveys and recommend economical solutions to ensure their customers make the right decisions.

www.safetyplusworld.com

Innovative Robotics Solutions (IRObotics) company is an Artificial Intelligence (AI) boutique established in UAE in 2021. IRobotics decision was driven by UAE vision to become a World Leader in AI by 2031. IRobotics partnered with Pudu Robotics, the pioneer company in China that is devoted to R&D, design and sales of service robots like delivery & disinfection robots used in governmental halls, hospitals, restaurants, hotels, schools, office buildings, airports, etc. Disinfection Robots are committed to epidemic prevention of COVID-19 and strengthen the health and safety of indoor environment. Delivery Robots distribute food by reducing direct people to people contact and ensure food safety.

MEDIA PARTNERS

OFFICIAL MEDIA PARTNER

Health, Safety and Security Review Middle East is the region's foremost health and safety magazine and is published quarterly. The publication responds to the growing focus on health, safety, security and fire protection in the Middle East and the need for increased coverage of these industry sectors. Each issue contains country reports, sector surveys, interviews and case studies, technical articles, exhibition previews and news of all the latest industry developments and product launches. With contributions from industry experts, testing houses, certification and notified bodies as well as selected health and safety advisors, Health, Safety and Security Review Middle East provides the reader with high-quality analysis and information from highly credible sources.

www.hssreview.me

MEDIA PARTNERS 2021

Oil Review Middle East, published eight times a year, covers the Upstream and Downstream petroleum industry from the GCC states and Iran to North Africa and the Caspian. Each issue contains industry news, country reports, sector surveys, technical feature articles, exhibition and conference previews and news of the latest industry developments and product launches. By combining authoritative and insightful editorial content with an unrivalled circulation throughout the region, it is the magazine of choice in the industry.

www.oilreviewmiddleeast.com

For over 36 years, **Technical Review Middle East** has been providing incisive and in-depth reporting into the key developments and current topics that concern businesses and industries in the MENA region. It has established an enviable reputation for the breadth and depth of its editorial, which include market and financial developments, in-depth analysis of key business sectors, reporting on industry trends and interviews with leading industry specialists.

www.technicalreviewmiddleeast.com

HSE People is an online community of Health, Safety and Environmental and PPE professionals who provide their members with news and resources including information about events, jobs, new products, training courses and more. Members of HSE People are focused on keeping people and their environments safe by sharing knowledge and expertise. HSE People helps companies promote their products and services through banners, articles, e-shots, social media marketing and more.

www.hsepeople.com

Fire Middle East provides an integrated media platform catering to fire and safety professionals in the region with a circulation of 14,000 and a readership of over 42,000 consisting of fire fighters, engineers installers, integrators, suppliers and buyers. The print magazine infiltrates the civil defence, ministries of interior, government agencies, oil and gas companies, construction companies, real estate developers and design consultants. The web site receives over 12,000 hits per month, providing a one stop shop for fire industry professionals, commercial ventures and government projects. The FME Interactive magazine is emailed out to over 150,000 fire and safety professionals.
